Brief history of Brazilian Jiu-Jitsu and minimum 120 hours sparring training in addition to instructional time. For example a class is 1 hour long but only 30 min is sparring. That is the time that goes to the 120 hours, not the other 30 mins.

These are the minimum requirements for this level. There may be additional techniques or questions required by the instructor. Examinee must be a current member of the AJJGA and grading to all belts can only be done by a black belt instructor.
